

# Nutrition Related Educational Materials for the Library & Classroom

## A Boxful of Resources for new FFVP Schools

Each year, HCNP partners with Follett Library Resources to deliver nutrition related educational materials to all elementary schools participating in the Fresh Fruit and Vegetable Program.

We searched for everything and anything relating to fruits, vegetables, good nutrition, cooking and healthy eating and have selected hardcover books that help build literacy skills as well as interactive games and manipulatives that provide hands-on experiences for students. We hope your teachers will integrate these books and games into their math, language arts, social studies, science and health lessons. More curriculum, graphics and other free resources can be found at <https://www.fns.usda.gov/tn/team-nutrition>

New FFVP schools will receive a box filled with resources like the ones below.\* Each year, about 65 Hawaii schools that participate in the Fresh Fruit and Vegetable Program will receive educational materials worth hundreds of dollars in addition to their FFVP grant to purchase fresh fruit and vegetable snack. For more information about FFVP, contact Jennifer Dang at 808-587-3600 or email [Jennifer\\_dang@notes.k12.hi.us](mailto:Jennifer_dang@notes.k12.hi.us).

Fruit Vegetable Program

## FFVP BANNERS

An FFVP banner will also be sent to each new FFVP school. The banner should be displayed somewhere visible to inform students, their families, and the general public that your school participates in the USDA Fresh Fruit and Vegetable Program.
